WHO GAVE ME THE IDEA

Note

Those of us who have had experience of native employees, or of business dealings with overseas, know the wholesome fun that is to be obtained from "Babu" letters. Generally such gems go the round of the recipient's friends and are then destroyed. This little collection preserves a few typical specimens that more may share their humour.

Place names, personalities, or names of specific products that might lead to identification have been altered or eliminated.

I wish to record my thanks to the many firms and individual friends in numerous countries who have contributed letters for this collection. Maybe readers will be able to send me, c/o my Publishers, even richer samples. They would be welcome in the event of a sequel.

In anticipation of the sceptic, I would say that in almost every case I have copied from the original, and though many letters had to be returned, I still have in my possession the originals of several of the best examples in the book.

DEAR SHE,

My wife has returned from Hospital cured. Provided males are allowed at your Bungalow, I would like to do you the honour of presenting myself there this afternoon, but I will not try to repay you. Vengeance belongeth unto God.

Yours noticeably,

DEAR AND FAIR MADAME,

I have much pleasure to inform you that my dearly unfortunate wife will no longer be under your kind treatment. She having left this world for the other on the night of the 27th ult.

HONOURED SIR—

From an African correspondence column :

Mr. A—— I am so sorry that your bosom friend puts you to public ridicule. Dont be down hearted but try to educate him from Deduction to Inducation as he says. If A—— is an authority in English, please let the public Know about it for this is crackKing my poor brains.

Here again your ignorance has betrayed you. The expression is bombastic and meaningless. The youths of X do not care how many English words Mr A—— can coin or manufacture, dont care whether he can add more letters to the twenty six letters of the aLphabet . . . all they want to Know is, has he been able to comply with B's question one?

ANSWER 2 Mr. A—— having read more of various papers both local and foreign gave chance to the decision of the Secretary of State. . . .

Your answers to questions 3, 4, and 5 are vague, will you please answer them properly with your TurcK BaKer's correct English, if you are not capable to do so, please retire and let Mr. A—— put his shoulder to the wheel.

I must now give my general remarKs on your rejoinder. You have been able to show hoW far you haveadvanced in English Please accept my congratulation for that, But your power of reasoning is below the average. Your expressions about Alladin's lamp, coined English, Deduction and Induction a e meaningless.

FROM BABUJEE

Your quotation of the Good Samaritan is not appropriate, The attempt you have made to answer Mr B's letter has been a useless and fruitless one Your answers are poor and weak and cannot hold water. They are absurd.

It has been your habit to find faults with others and to shoW what you Know. Your refined English and long talKs have ueen a grandiloquent and empty and for this l recKOn you among the high flying ignoramuses. Remember " That every head has a soft place in it and every heart has it black drop, and that a white horse is always hlack if your eye chooses to make it so "

I have no patience with people who would not sit in their own house and look into their affair but poke their noses into everybody's house to smell out faults.

I step into this matter to check your impudence and gross impertinence. You must always learn to hold your tongue in an affair that has nothing to do with you.

Better writers are wanted to contribute bet ter articles to improve the local papers, we want a Bernard Shaw, A Rider Haggard. A Joseph Hawkim, A Conan Doyle to make our local lournas very interesting with humorous stories etc, and not plenty of words without meaning. Why not contribute items of this kind for the local press and become a famous writer, Leave all trifling matters to take care of themselves.

Every body has his faults, you have yours,

HONOURED SIR——

I have mine, and so does A——. As you have touched the soft place, (as you supposed it to be) in B's head, I am also showing you that There is fire in the flint though it looks so cool but wait till the steel gets a knock at it and you will see.

As you are aware that I am writing, I am quite sure you are also prepared to hold your head up with A——. I know you two are fully prepared to pull my legs.

Here I give you fat legs when you pull them, you will find out what stuff they are made of, If you people give me the ode, I shall give you a tune to suit it. Before I forget, I want Mr, A—— to know that I know him very well If you try to disturb the papars again with your long talks I shall disclose your names to the people of X.

Ne Sutor Supra Crepidam.

To avoid suspicion I am contributing my name, my readers will forgive me for encroaching upon their precious time,

I thank you again Mr. Editor,
Yours truly,

Newspaper Report of a West African football match :

The number of the ardent spectators that witnessed the school League Match between the R.School and the B.Mission school team trebled previous records but because of the extraordinary misbehaviour of the R. school team backed up by their teachers these countless spectators were utterly disgusted.

The first half time of the play was highly commendable and although there was no score on either side, both teams showed equal energy. The R. team during the second half time, however, scored a fine goal and gained tremendous applause from the teaming spectators but immediately after the score the spirit of the winning team became so much so that buffaloes are the proper animals they could be compared with.

An attempt was made for a second score but the goalkeeper of the defeated team was so sharp at this moment that he cleverly snatched the ball and quickly threw it into the field of play to the utter dismay of the opponents. Whilst the play was in progress one of the winning team rushed furiously and knocked the goalkeeper to the ground on the outside right of the goal and then gave him a merciless kick on the abdomen.

The goal keeper consequently became unconscious instantly and several fruitless efforts

HONOURED SIR—

to revive him were made by his teachers and school mates. Doctor B. who was at the park with a goodly number of our European friends, however, gave up his car for the conveyance of the victim to the hospital where we understand the skilful doctor succeeded after many efforts in bringing the boy to life.

The suspension of Manganese Work at Insuta . . . has caused great consternaion but there appears to be a redeeming feature to give us a little relief from the gloomy economic plight.

A lady who has had a sound secondary education and whose correspondence and literary work will startle the world if they were to receive publication, had just embarked upon a scheme and discovery whereby Manganese Ore could be manufactured into all sorts of implements and Motor Spares . . .

The lady whose name at present we refrain from mentioning for certain reasons is floating a Company to take up the working of the Manganese Ore near — and the people of this country will be well advised to give her every support in order to help materialize her schemes which we find is all full of latent possibilities.

This lady proposes to give the lie to all who think there are differences in the mental calibre of the races especially that of the African woman.

The latest development in her Research Work is that she has collected wee bits of Ore and manufactured them into really beautifulurgi instruments. She deplores the fact that our

HONOURED SIR——

From an African newspaper :

DEAR MR. EDITOR,

In the —— of the —— it is reported that the W—— School Boys dance Adaha. It seems that the A—— correspondent has solely set his mind to besmirch our local School with reverie of idle calumnies on more than two occasions in the local papers he has busied himself with insensate battologies about the School and it is a pity to find him always to be calcitrating against the prick in that not one of his remarks was found to be true.

It is to be believed that he is one of the class of the proletarians who belong to some poor denominational school hence from sheer envy he could have called forth an outburst of aspersion against the far famed School ; the correspondent's petulant and conceited spirit as that revealed in the papers betrays his worthlessness and proves that he is not a ripe scholar...and it would be interesting to add our quota to his aspiration and thrasonical air of feuilletonism that he was a boy who could not even pass standard V. in his school days ; and only by reading he has gathered some scrappy knowledge which to him is an estimation of a gnosis unparalleled and which out of ecstasy makes him a bedlamite in his belief of being somebody or rather a soi disant servant ;

FROM BABUJEE

as knowledge ill-acquired and ill-diffused is a dangerous thing he thinks he could be enlisted among the prominent by writing blasphemous, cowardly and gratuitous libel against anyone.

Readers would stagger to learn that his statement in the ——— that the Linguist at Lower Town is an ex convict is not true:— is the correspondent not a congenital wicked scamp and a notorious swain to tarnish falsely people's reputation?

As ruinous as semi education is, he does not care what ever he scribbles. Anyone who shares the weal and woe of a fellow citizen will feel dissatisfied of the attitude of this rascalion who, through malice has set before him the job of injuring others—as a tree is known by its fruit so a knave by his deeds.

Adaha dance is a sort of rough band playing by some town boys ; the wonder is the school does not go to drilling by hiring the town band to play for them so that one might possibly give way to the ascendancy of credendum somehow that the boys succumb to the saltatorial melody played by the Adaha band—but rather it has a band of its own, manned and played by a select and specially trained boys under the control of Mr. ——— who is one of the school teachers ; and the beautiful discourse of mellifluous music such as rendered by the school for drilling purposes fills the spectators with great delight and

HONOURED SIR—

praises have been showered on this school many a time; there is no gainsaying that the School band playing is second to none in this district.

Now the ignoramus taking umbrage of the incessant praises on the school satisfies his cavilling tendency with scandalum magnatum:—is he not as much useless in giving poignant doubts and misgivings as Don John whom we read of in the “Much Ado About Nothing.” That he hears no music and having no element of music in him is decidedly true because he cannot differentiate between good and bad music. when he was in school he could not run common diatonic scale and when he attempted to sing his coarse voice made people weep, and since then music has been loathsome to him.

The man that hath no music in himself,
Nor is not moved with concord of sweet sounds
Is fit for treason, stratagems and spoils:
The motions of his spirit are dull as night,
And his affections as dark as Erebus,
Let no such man be trusted.

Shakespeare.

The wretch dictated to the school committee that they should stop such nuisance, is, he wiser than the school committee which is composed of intelligent and competent men and not as quack

HONOURED SIR,

I beg to being to your kind notice I went to work at Assam Attabari for the Telegraphic Electric work. The Babu placed the Telegraphic Post on the ground by digging the earth, so I told to the Babu that if the post be put down in the way the post will be turned so you order to put down the place under the post and stake so the

HONOURED SIR—

Babu laughed and said you became Engineer better than so he do not heard me, and when the post put down and connected with wire the post turned and worked and said to him when he said to me Engineer that if I would have been Engineer why will I come to cut down the Bricks Then the Babu said what can be done, so I told the Babu you got angry upon me did I not tell you before.

Then 2 days after I asked to the Babu for some expenses so he said Oh I cant give you you go to the office so I told to the Babu that you have brought Rs 200/- for us please give so the Babu said no I do not bring the money for you I have brought the money for myself, and that time I was attacked with fever so I felt hungry and thirsty Then I came to Calcutta borrowing Rs10/- from a mistry.

HONOURED SIR—

Addressed to a Calcutta bank :

(A sircar is a warehouse keeper. A challan is a delivery order).

SIR,

Most respectfully and humbly I beg leave to bring to your kind notice that I have been serving in your office for two years and directly under you for one year. During this period you forgave me my misgivings and shortcomings because I regard you as my benefactor and I always pray to God for your prosperity and earthly happiness and I trust that you never wish to see that my services are dispensed with as I have never been of such misconduct as to get that punishment.

I was first appointed to work at the customs and at jetty and I have been doing that till now. In course of time work increased and I applied for more hands but to my misfortune Mr. R—— instead of helping me with more hands began to give all work to Messrs. G—— & Co. who to push on with our work employed 12 men and if you kindly judge Sir, you will see how impracticable it is for me to manage same with only three assistants. Besides, if you kindly enquire how long a time Messrs. G—— & Co. take to pass our chalans and what high rate they charge in comparison with the time I generally took to pass same and at how low a rate you will come to understand every thing.

FROM BABUJEE

Next I was placed in charge of the godown by Mr. R—— and in the name of God I say that I worked up to 9 and 10 o'clock at night for receiving goods and for properly stocking them and I never allowed any irregularities to crop up in so doing but as ill luck would have it, I fell ill and so long I have been able to attend office I came and worked but eventually I was bedridden and I applied for 10 days' leave on Medical certificate. During my absence Mr. R—— was cajoled by his pet P—— Babu and my assistants being ignored P—— Babu prevailed upon him and took an advance of Rs. 150/- and got my assistants to do the work for him and tried to draw advance on the same scale as I have been doing and poisoned the ears of Mr. R—— against me to such an extent as to make him a tool to do away with my services. P—— Babu leaving aside his own job has got hold of my assistants and is doing the godown work with the hope of basking in the favour of Mr. R——, so much so, as to completely convince him that I am a worthless man and my services are useless. This is evident from the fact that after I rejoined office after my illness I was not allowed by Mr. R—— to do my own work, which sort of treatment I never experienced with Mr. R—— ere this.

I have heard from a reliable source that P—— Babu has already spent Rs. 70/- or 80/- out of the advance on his own personal account which will be proved if you kindly call for account from

HONoured SIR—

him and examine the balance in his hand.

Daily he comes to office quite drunk and smells wine and if you enquire the office Babus will hear testimony to the truth of my statement. He is a man of loose morals, and because of his bad character he has been driven out of his house by his father he has no settled house and is a libertine.

It will be a great regret if my services are dispensed with or if I am proved worthless by the false statement or ear poisoning by a man of his character and conduct. Truly speaking, Sir, God forbid, if worse comes to the worse I shall have to starve with my family consisting of my old mother brothers, sisters, wife and children. I pray to God to shower His Blessings upon you if you kindly grant me a personal interview to open my mind before you as I have got many things else besides, to speak.

Unity is necessary, because it is the main post for every building, owing to our disunion we are scattered. Oh, my Native town awake and put away your childishness, let us take the right steps of our neighbour towns, let us pray for wisdom and multiplication of knowledge, let us be content on what we have and in future we may not be deprived of it. “Unity is strength” and I don’t think that. if we have united things should be as it is. HONoured SIR—

To a Calcutta bank official :

DEAR SIR,

Under the sheer tyranny of misfortune I have been, at present, confined to bed and reluctantly prevented from paying your goodself my last visit at this time of your sad departure from Calcutta.

As my gum bled profusely owing to the extraction of a tooth, I am still under the influence of nervous debility, which causes my heart to palpitate every now and then and am instructed by my medical attendant not to get out of home or undergo any slight labour, which may prove seriously dangerous to my life, but to have absolute rest for a fortnight at least.

Under such circumstances, although you have been kind enough to grant me leave of absence, yet considering the present weakness of my health, I cannot make out whether I shall be actually in a position to resume my duties at the expiration of my leave. However, it is no doubt illuck that my invalid constitution deprived my unfortunate self of a parting interview with my noble and kindhearted master like your goodself, whose modest dealings, generous treatment, appreciation of merit and even-handed justice will hardly be effaced from the pages of my memory. Ever praying to the Almighty your future prosperity and welfare and bid goodbye with heart full and eyes dim with the effusions of depression.

HONOURED SIR,

Most respectfully, I beg to bring to your memory that nearly two weeks ago I was unfortunately subjected to an attack of fever accompanied with multiple boils in the buttox and was prevented from attending office for a week. After recovery, although I have joined office and working here to the best of my ability, yet by Irony of Fate, instead of getting any strength, I feel myself gradually pulled down and dejected by the continued pangs of my acute suffering.

Under such circumstances, in order to get rid of a chance of relapse that may seriously tell upon my health, I have been instructed by my physician to get my blood examined from the medical college. As I have got an opportunity to have my blood examined from the medical college free, through the kind interventions of some the House Sergeants, I shall deem it a piece of good fortune, if you kindly look upon my poor self with sympathetic eye and grant me leave today at two. Hoping my prayer will not be in vain.

An " open letter " printed by a Gold Coast periodical and addressed to a tribe urged to form a new state. (Long passages which have been eliminated are indicated by dots.)

SIR,

We should be very obliged if you would find it convenient to publish this letter.

To begin with, we beg to lay down the following passage for immediate consideration of those who are concerned and affected :—

Breathes is a man with soul dead, who never

FROM BABUJEE

to himself hath said there is my own, my native land.

In view of the extraordinary depression, actually sinking down and the retrogressive condition of the general people and the Nation or the Tribe known as — of which community you belong and at present holding posts as natural rulers, the writers of this open letter or rather the patriotic reminders, aims are, that they actually feel the situation and humbly beg to seek the permission of your loyalty to bring to your prompt attention the following facts.—

Are there no comparative men of intelligence, men of importance, men of true courage, and right advising men of this modern civilisation and true historians out of the soil amongst the children of the — nation or Tribe to discuss matters with you worthy men? we mean you sensitive men holding the nature ruling positions and being lawfully elected for convenient posts to have your spirits and minds awakened and to direct your attentions and aims boldly in diving into tradition and in seeking the right and the beneficial step to ameliorate the retrogressive condition of the nation — that her people might share and enjoy the equal privileges and the political rights with the surrounding nations or states in this our modern civilisation? . . .

As you are quite conscious of, it is needless to make mention from time to time the development

HONOURED SIR—

of political unrest on the community which tends always to retrogression and ruin the condition of affairs. The opportunity to have best improvement of things, the promotion of the — tribe in particular and to put to an end all these political troubles is offered to you since long, why should you cause delay? Pray, give no slight ear to any bad and deceitful counsel or to any other seduction.

As you know again, that you cannot before God and man achieve anything satisfactory to the general promotion of the — State or the tribe than to cling in union with each other. . . .

To compare the prosperity and the progress of a nation to a great River. it is that river which receives its streamlets and having the source from the inland and empties itself in the shores that shows really a progress and going on forever. Why then should'nt our hearts be thrilled and be proud enough to re enter into oneness in a way of union to have the A— State substantially arranged as others for our general uplift, as our present somewhat separation is simple and by true tradition due to more negligence of the former people and especially on the Government. . . .

What has made the other towns great is practically nothing but union and understanding between the subjects or the community and the rulers soon shall every tribe have everything of her own why should you — Elders and sub-chiefs then give dead ears to misleadings flattering

FROM BABUJEE

words and real deceits? Pray you Elders in managing our political affairs must be very watchful of the avaricious miller be very careful of the fox without a tail for surely he who never possesses by right but in some way or the other exalts himself shall be abated. . . .

Let our object now be to make ourselves intelligently proud of our — tribe and its origin and to encourage the instinct thereby to the reunion of the — State and by struggling most sincerely for its Independency. The matter is now in its simplest and clearest.

“A word to the wise is enough.”

Thanking you for the space allowed.

We are Yours truly,

I have been working in this Bank for about two years, and am keeping the Cask Book at present. I must thank you very much for your kindness in looking upon me during the past years.

I am living with my parents in the (New Territories) Tai Po market. So I go back to Tai Po when I finish my work by the local train everyday.

Usually I ask the boy to get me the vouchers from the other departments every day, so that I may balance a little earlier and catch the last train to go back to my home. But I am very sorry to tell you that while I called the boy to get the vouchers for me yesterday afternoon at 6.30 p.m., however Mr. A— thought that I make fool with Mr. B—. For Mr. B— also calling the boy at that time.

As in consequence, he fought me and squall me. At that time I tried to explain him that I am not make fools with Mr. B—, yet, he paid me no attention. Suddenly Mr. A— lose his temper. From a West African weekly :

FOOTBALL

The E—— Football team in town went to play a return match with E—— Centre Wonders and returned the same night with victory.

The ball was kicked off at 5. 30 p.m. on the —— Park, under the Refreeship of Mr. T—— whose influence in this connection brought the game to a very disciplinary success at 6. 30 p.m.

Although both teams played fairly well yet the Centre Wonders whose name as a fact ought to have proved its worth to the public could not display their wonders any longer before they

FROM BABUJEE

were defeated by two consecutive goals to nil.

The hope that failed them acutely reflected a shame on the E—— community of which on the contrary, they acted very savagely immediately after the game, by beating the opponents with stones, cudgels and broken bottles in revenge of their peoples defeat.

The result would have been very fatal had not the assistance of the Police been readily secured; even then they persisted in the irat-tempt, by stealing some Hats, Shirts, raincoats etc, which are the properties of the opponents.

The Corporal in charge very briskly proved his police calibre by ordering his staff to escort the E——'s to Master Y——'s house, with a view to maintaining order and peace but still there, their sturbbornness elevated more than before by throwing stones at the Victors and the police as well.

What was worse than all was the ambush which they laid within a mile from E—— with the intent to trouble the E——'s again on their return.

The rumour reached the po ice and in view of that the E——'s were detained till about 7. 30 p.m. when they were asked to leave under police guard.

Sure as it was, the Lorry on which they were going came to halt at the barrier which the E——'s had made to impede passage and sooner the police and other people dropped down to

HONoured SIR—

remove it, they were assailed unexpectedly in which one policeman was wounded.

The police, after this incident, never discouraged but rather meant their duty in continuing their guard as far as to J—— a village about 10 miles from E—— before they returned.

We hope Government will not this time spare a rod to these people as they seem to take much advantage over their recent riot in which they were discharged.

We are very thankful to Master Y—— for his kindness in sheltering the E——'s in his house and especially corporal Y—— whose interest in the affair is worthy of mention.

The Inspector General of Police may please consider to promote this officer for he is capable in discharging his duties, especially where political unrests are concerned

A round robin presented to a Calcutta bank :

SIR,

We the undersigned peons of your Bank most respectfully beg the following new lines for your kind consideration and favourable orders.

That ever since we have been appointed under your kindself. We have not been so fortunate as to get a single chance of increment of pay. But we are sorry to say that just when we are qualified ourselves for allowance the system of allowance has been discontinued and the allowance has been

given in shape of increment of pay to those who were already in better condition. And thus we have lost our chance. It would not be out of place to mention here that in such a hard time when the necessities of life are abnormally high the distress in the pecuniary condition of your poor petitioners owing to abnormal rise in the cost of living due to the recent world wide War is severe to maintain and your humble servants find themselves absolutely unable to make both ends meet in maintaining family and befitting their position in society. The Atta our chief food is being sold at 3 seers per Rupee.

Under the circumstances we fervently hope your kindness will remove our difficulties by an increment of pay same as sanctioned to the Collecting peons of this Bank for which act of your kindness we shall as in a duty bound every pray.

From a babu :

HONOURED SIR,

With humility and respect I approach you with this, my request to increase my monthly stipend. I am now in receipt of Rs. 150 (£11 . 5s.) per mensem, which I now petition to be increased to Rs. 200 (£15).

I am a married man and am possessed of two male and two female progeny. I am further informed by my wife that by the Grace of our Lord yet another child will be added to our already full household in approximately seven and a half months from the date hereof. As your Honour knows, the cost of living in this country is very heavy for those who are mere toilers.

My numerous creditors cause me frequent embarrassment when I walk in the street, and I humbly submit that this might injure the fair name of the company which you so adequately command. I have long ago cast out luxuries from my life, but there are many pressing needs which are called for from within one's household.

The information which my wife has given me which I have referred to above causes me much anxiety for the future.

I have, your Honour knows, served this Company faithfully and well for two years and three months, and I have suffered much hardship when you have ordered me to accompany you into the

HONOURED SIR——

interior. I have never faltered in my duty, but obey without murmur or protest.

I ask your Honour to devote thought to this earnest request and not to lightly cast it out without contemplation of my future dire straits when my wife formally produces my fifth child. If your Honour grants this appeal, I will with my family for ever pray for your health and prosperity to the Lord Jesus Christ, whom your Honour so closely resembles. Your obedient and humble servant ——.

HONoured SIR—

From a Gold Coast weekly :

Taxmania.

The Cocoa Cess Ordinance announced to be introduced into the Colony is another matter that is creating unconcern and its bound to bring down the price of Cocoa just as the 3s. per ton to be imposed for inspection purposes. The truth is that the world is too bad to be worried with taxation at the present moment and this Colony cannot afford any taxation at all just now. We would advice Government to take his hands off cocoa entirely and to leave the poor farmers to earn a living and to continue laying their golden eggs which sustains the whole Colony. Any thing that lowers the price of cocoa should be avoided and the money put in the hands of the farmers always circulates in different ways. This extra taxation therefore is unnecessary and most unsympathetic.

MOST HONORED SIR,

Understanding that there are several hands wanted in your Honor's department, I beg to offer you my hand. As to my adjustments I appeared for the Matriculation Exam at Ooty, but failed, the reason for which I shall describe.

To begin with my writing was illegible, this was due to climatic reasons, for having come from a warm into a cold climate found my fingers very stiff and disobedient to my wishes.

Further I had received a great shock to my mental system in the shape of the death of my only fond brother.

Besides, most Honored Sir I beg to state I am in very uncomfortable circumstances being the soul means of support of my fond brother's seven issues consisting of 3 adults and four adulteresses, the latter being the bane of my existence owing to my having to support two of my own wives as well as their issues of which by God's misfortune the feminine gender predominates.

If by wonderful good fortune these few humble lines meet with your benign kindness and favourable turn of mind, I, the poor menial shall ever pray for the long life of yourself as well as your Honour's posthumous olive branches.

Finding that the drug was taking effect but not as she thought, the husband appeared poisoned even to her untrained examination rushed back to the sorcerer and told him that he had given her the wrong charm, for her husband was dying. She had no reply save that he was employed and he had done his work, because death was the only manes that could give the woman more than the husband was willing. The woman who knew that the man's family would leave nothing for her immediately became insane and in her madness confessed to the man's family what she has been responsible for. Beware of women.
